SUMMARY

Aspiring MERN Stack Developer skilled in React, Node.js, Express, MongoDB, and Java Spring Boot. Built and deployed role-based full-stack apps with JWT authentication, REST APIs, and real-time features — eager to contribute to a collaborative engineering team.

PROJECTS

E-Commerce Shopping Cart

Jul 2026

GitHub: github.com/.../shopease-ecommerce

Live Demo: shopease-app-4l4e.onrender.com

- Built a full-stack e-commerce application covering product management, shopping cart, checkout, order processing, user profiles, and an admin dashboard.
- Implemented JWT-based authentication with bcrypt password hashing, and Redux Toolkit for cart and order state management across the app.
- Developed backend REST APIs with CRUD operations for products and orders, and implemented role-based access control for admin vs. customer views.
- Owned frontend-to-backend integration end-to-end, deployed as separate services (React frontend + Node/Express backend) on Render with MongoDB Atlas.

SocialWave — Social Media Application

Jul 2026

GitHub: github.com/.../socialwave

Live Demo: socialwave-web.onrender.com

- Built a full-stack social media application using the MERN stack with secure authentication and two-factor authentication (2FA).
- Implemented user profiles, followers/following relationships, posts, and comments.
- Added user search functionality and a real-time chat feature using WebSocket-based communication.
- Designed the data models and API routes to support social interactions at scale.

JobSpark – Job Portal Management System

Aug 2026

GitHub: github.com/.../jobportal

Live Demo: jobspark-xy7z.onrender.com

- Built a full-stack job portal with Student, Employer, and Admin roles using Java Spring Boot, PostgreSQL, Thymeleaf, and Spring Security (MVC architecture).
- Implemented job listings, applications, resume management, and Email OTP-based registration.
- Developed role-based dashboards, search autocomplete, job bookmarks, and an automated job expiry system.
- Integrated an AI chatbot to assist users, and mapped the project to UN SDG Goal 8 (Decent Work and Economic Growth).

EDUCATION

B.Tech, Computer Science and Engineering (AI & Data Science) — Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Avadi, Chennai (Expected 2027)

Higher Secondary (Bio-Maths) — Narayana E-Techno School, Chennai (2022)

Secondary School (Class 10), General — Velammal Vidyashram School, Chennai (2020)

SKILLS

Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript, React.js, Redux Toolkit

Backend Technologies: Java, Node.js, Express.js, Spring Boot, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, SQL

Version Control & Tools: Git, GitHub, Render (deployment)

Soft Skills: Problem-Solving, Teamwork & Collaboration, Communication, Time Management

CERTIFICATIONS

- Full Stack Development Course — GUVI-HCL, Aug 2026
- Object Oriented Programming — NIIT, Feb 2026
- Managing and Querying Database — NIIT, Nov 2025

LANGUAGES

English, Tamil
